Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

Claim Rejections - 35 USC § 102

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

2. Claims 1-4, 6 and 7 are rejected under 35 U.S.C. 102(b) as being anticipated by Sasarak (6,240,809).

Sasarak discloses all of the limitations of the above claims, i.e., a tool having a center member (330) coupling member (40), ratchet (334), slot (344), plurality of removable handles (320) (370) having coupling members (372) (322) with square cross section, spring depressed detent (322a) (372a) and sleeve tip at the other end (374).

Claim Rejections - 35 USC § 103

3. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

4. Claims 5 and 8 are rejected under 35 U.S.C. 103(a) as being unpatentable over Sasarak.

Sasarak meets all the limitations of the above claims except for the shape of the coupling member and the number of handles, both well within the knowledge of one of ordinary

skill in the art, depending on the workpiece (e.g., sockets with hexagonal connecting part) and/or operational parameters (e.g. wherein three handles are desired), as evident by cited references.

Conclusion

5. Prior art made of record and not relied upon are considered pertinent to applicant's disclosure. Middleton; Barnes; Lucy; Jones et al.; Avery and Fairbanks are cited to show related inventions.
